NARITA AIRPORT

Access Narita Airport is approximately 60 km from the heart of Tokyo. Major means of airport access include buses, trains, and private automobiles.

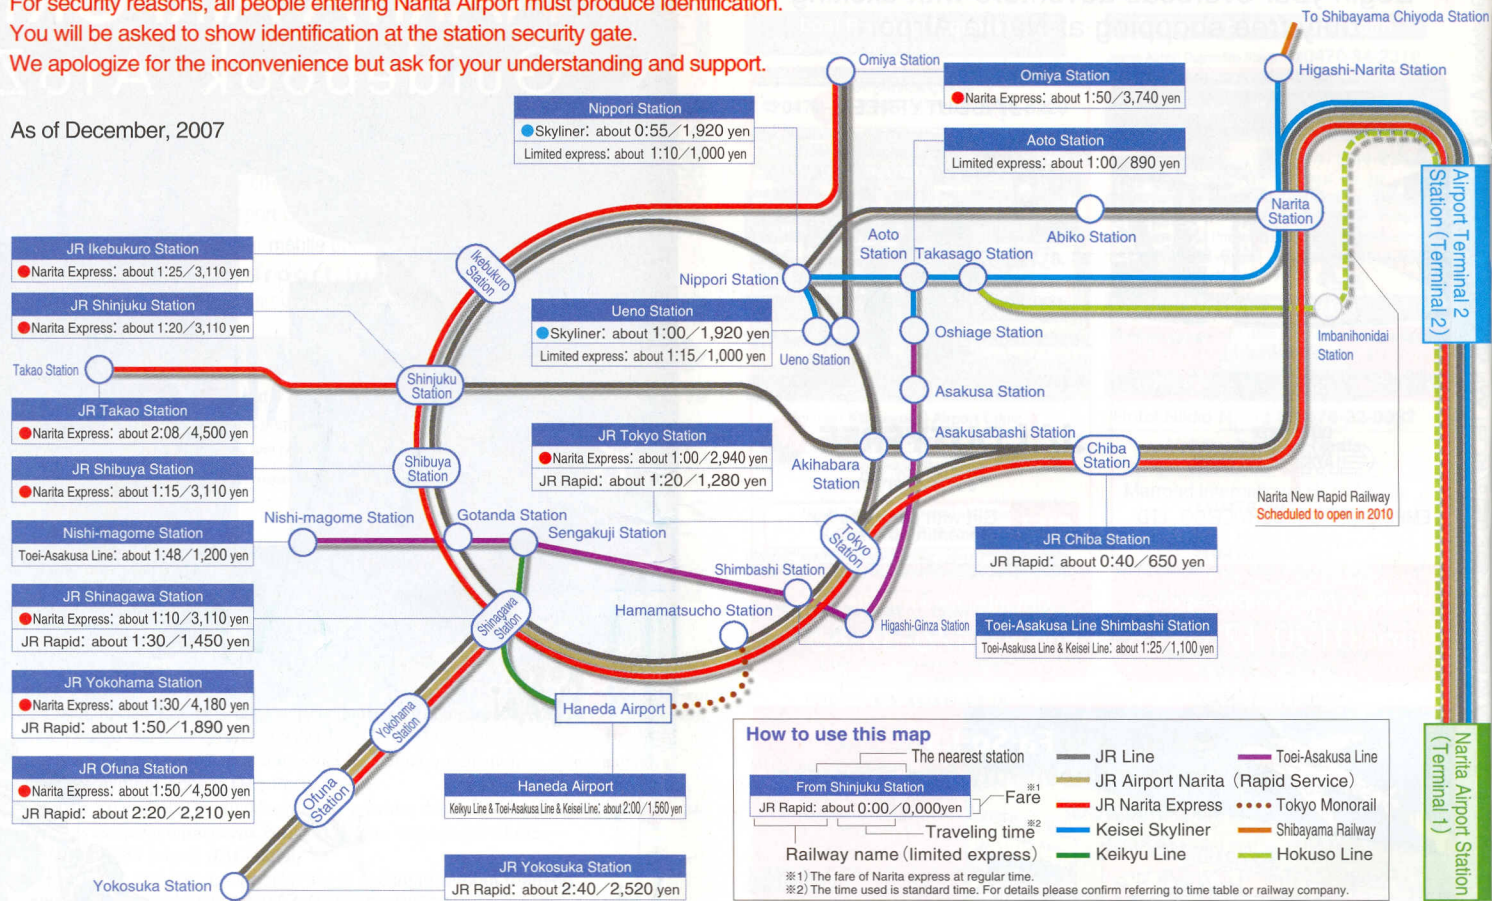

Narita Airport Access Network (JR East & Keisei Railway)

For security reasons, all people entering Narita Airport must produce identification.

You will be asked to show identification at the station security gate.

We apologize for the inconvenience but ask for your understanding and support.

As of December, 2007

Narita Express, called "NEX" provides rapid, frequent, and comfortable service to passengers traveling between Narita International Airport and the Tokyo metropolitan area. "NEX" usually runs every one hour and every 30 minutes at peak hours. For details, please inquire at JR Reservation Ticket Offices, View Plaza travel service centers, JR East branch offices, or major travel agencies.

It is easy to transfer to JR and subway lines from the Keisei Skyliner. All seats are reserved with luggage space, and it runs every 40 minutes. For details, please call Keisei Ueno Information Office.

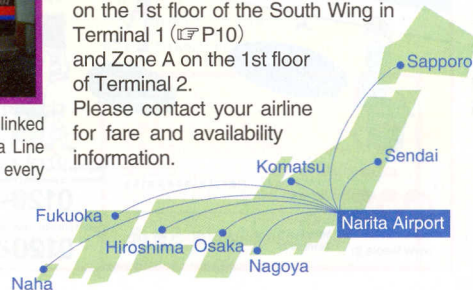

☎03-3831-0131

Haneda Airport and Narita Airport are linked by the Keikyuu Line, the Toei-Asakusa Line and the Keisei Line. The express runs every 20 minutes.

Domestic connections

Domestic services provide fast, convenient links to many destinations in Japan. Domestic check-in counters are located on the 1st floor of the South Wing in Terminal 1 (P10) and Zone A on the 1st floor of Terminal 2. Please contact your airline for fare and availability information.

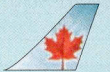

Your terminal number at Narita Airport will depend on the airline you are using. Please confirm the location of your airline before you arrive at the airport.

Should you go to the wrong terminal, a free shuttle bus operates between the two terminals. (☎ P4)

Be aware of code-share flights. Code-share flights are flights operated by more than one airline and the flight numbers are designated by each airline. The information on the terminals below differs according to the flight. As the information below is as of December 1 2007 and may differ from the latest, check with your airline before using the airport.

Terminal 1

“Wa(Harmony)” Area now open in Terminal 1

The Central Building of Terminal 1 will be renewed, the next project following the grand opening of the South Wing in 2006. Its Japanese-style layout will comfort foreign visitors and travelers on layovers in an authentic atmosphere. The area to be renewed is approximately 2.800m² in total, and is scheduled to open in late December 2007.

A new look for the check-in counters to simplify departure procedures.

In keeping with the changes in the South Wing in Terminal 1, an in-line baggage security screening system will also be installed in the North Wing*. This will also eliminate the need for baggage security checks and security barriers before check-in, make more space available and facilitate the flow of movement in the departure lobby.

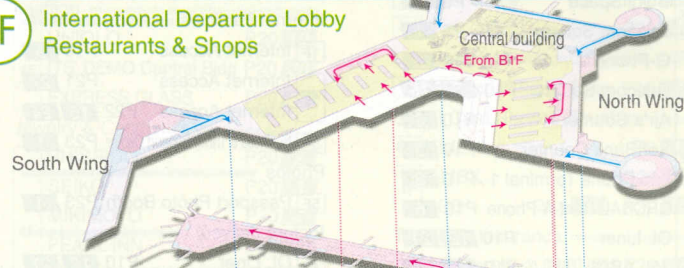

The check-in counter information displays will also be replaced with large LCD screens to assist customers to find their way around the airport.

*State-of-the-art explosives detection system (EDS) installed on the baggage conveyor line automates baggage security scanning.

Service Information

Wireless LAN link

Internet access is available via the roaming service offer by your Internet service provider or through roaming service companies. Roaming services are widely used overseas as well and, because they incorporate user identification procedures, they offer safe, high quality access.

International roaming services and direct roaming services

① Access to the Internet is available via iPass using your standard ID and password issued by your usual provider.

② Direct roaming services are available through one of 9 companies: Mzone (NTT DoCoMo), B Mobile, Orange WiFi Access and SPRINT.

→Please inquire at your usual service provider for further information on access and rates.

Credit Card Payment Access (Biz Portal)

If you do not have a service provider or your provider does not offer roaming services, 24-hour access is available through Biz Portal via Narita Airport's portal site.

¥ 500 yen/day (24 hours) (Biz Portal)

→Narita Airport's wireless LAN portal site is available without roaming.

*Wireless LAN settings SSID:NRT-AIRPORT WEP:None

*VPN Access Our system is also compatible with VPN networks allowing users to connect to corporate networks through the Internet to access their mail.

※Please be aware, however that this will not work if your company does not have a VPN or its VPN is not compatible.
